

A NOTE REGARDING THE VIDEO OF THE RECITALS

Keepsake Video Productions will be videotaping Recital #1 on Tuesday May 23rd and Recital #2 on Thursday, May 25th.

As in the past years, they will be at the High School early to film the arrival of dancers and catch candid shots prior to the start of the show.

Their productions are high quality, and they've been doing videography, for many years, of weddings, sporting events, graduations, college dance productions, and of course A Dancer's Reflection recitals and Nutcracker productions. Randy and Kelly offer a great product that is well worth the investment. Speaking from experience, having high quality videos of my girls' dance recitals and weddings is priceless. **Audience members filming during the show is discouraged. It is very disruptive to those around you.**

This year, Keepsake Video will be offering a digital download of the show. **They will not be selling a DVD.** A digital download is much higher quality than a DVD and gives more options for playing, archiving, and sharing. The cost will be \$30, lower than a DVD.

We are going to offer the purchase of the download at ticket sales, so that you can pay with a credit card or use any of the credit you have on your account.

You can still order your download by sending the attached order form along with a check to Keepsake video. You may also order the download during the recital week. Kelly, from Keepsake Video, will be there taking those orders. At that time, you can't order with a charge card. Only a check and cash will be accepted.
